The Clifton Clarion and the Clifton correspondent of the Tombstone Republic light on Judge Sheldon's shoulders and pound his ears vigorously for letting a couple of culprits off with a year in the county jail when according to Graham county notions they should have had a hundred and ninety-nine years in the penitentiary at Yuma and then been drawn quartered.

The Resources of Arizona.

There is a rush for this work and Commissioner Hamilton's office is besieged by people from all portions of the valley anxious to send copies to their friends abroad. Mr. Hamilton has now on his table nearly 500 letters from California alone, making application for the book. The publication cannot fail to be of incalculable value to the entire Territory. Its exhaustive description of the agricultural resources of Arizona and especially of the Salt River Valley, and its valuable information on the irrigation problem, is sure to attract attention and bring population to Maricopa county.

No more comprehensive and attractive work of a like nature has ever been issued by any State or Territory in the Union. Mr. Hamilton while doing himself credit, has conferred credit on the Territory; and it is only to be regretted that the Legislature was not more generous in their appropriation. Such a work should be kept steadily before the people of the East, and the public money cannot be expended to better advantage. Mr. Hamilton has copyrighted the book and after the edition authorized by the Legislature is exhausted, may issue one on his own account.

By to-day's dispatches we have an imperfect synopsis of the President's message, from which little of its real nature can be drawn. From the general expression of the press the document seems to be satisfactory.

Matters have come to a strange pass in San Francisco and in the United States when a gang of Chinese highlanders by open threats of violence to witnesses defeats the ends of law in a United States court. It is well nigh time that the government of the United States should stop and take into more serious consideration what manner of heathen she is harboring within her borders.

One Pon Sing, a United States interpreter and the only witness against a squad of fourteen coolie slaves just imported into San Francisco as "students" or something of the sort, has been openly threatened with death, followed in the streets at midnight that he would not go into the courts to testify and finally turns up missing, and of course the coolies must be admitted no proof of their fraudulent certificates of entry being producible. When the Chinese of San Francisco are thus able to control the courts it is high time that Kenney's battle cry should become the slogan of those citizens of the United States who would see the country governed and justice reach its ends for a more reputable purpose than mere clique gratification class advantage or political effect.

President Arthur's Message.

WASHINGTON, Dec. 4.—To the Congress of the United States: At the threshold of your deliberations I congratulate you upon the favorable aspect of the domestic and foreign affairs of the government, and our relations.

We continue to be on a friendly footing with the Argentine Republic with Belgium, Brazil and Sweden and Norway. No incident has occurred which calls for special comment. The recent opening of new lines of telegraphic communication with Central America and Brazil permitted the interchange of messages with the government of those countries. During the year there have been perfected and proclaimed consular and commercial treaties with Servia and a consular treaty with Roumania, thus effecting intercourse with the Danube countries while our Eastern relations have been upon a wide basis by treaties with Corea and Madagascar. The new boundary survey treaties with Mexico, and the trade convention and supplementary treaty of extradition extending the duration of the Franco-American claims commission have also been proclaimed. Notice of the termination of the fisheries article of treaty of Washington was duly given to the British government with political privilege and exemptions. The fisheries on the northern coast of the Pacific and Atlantic sides dismissed also pauper immigration from Great Britain to this country.

The restriction on our commerce with Cuba and Porto Rico are spoken of with regret. The claims against the Spanish government for action against the Moscoso at Manila and the treaty relations with Switzerland and Bulgaria are discussed. In regard to the latter country the President says: "I suggest that I be given authority to establish an agency and consulate generalship at the Bulgarian capital."

Respecting Mexico, the President said that at no time in our national history has there been need of closer and lasting relations than at present. Provisions for reciprocal crossing of the frontier by troops in pursuit of Indians has been prolonged another year. The close proximity to Central America justifies a consulate generalship at each capital of the several states composed therein, question of terminating or modifying the existence of a reciprocity treaty with Hawaii is now before Congress. The President is convinced that the charges of abuse and fraud under the treaty have been exaggerated. In the new suggestions of last year's message, that the treaty be modified wherever the provisions were erroneous to legitimate trade between the two countries. Measures had been taken to prevent further violation of the Chinese restriction law in 1883. J. M. Schriver to Mrs. Julia O. Schriver.

An item from the London Graphic found its way into the columns of the HERALD a few days since which proves to be offensive to a few of our Italian friends. It was not repeated as a reflection upon Italians, as will be seen by reading the item, but to show the estimate in which the Graphic assumes to hold that people and by the expression of which it proves itself a narrow-minded and prejudiced journal.

A Partially Dead Man.

The Morning Herald, Baltimore, Md., states: Major B. S. White, of this city, describes his miraculous cure as follows: "I have been a partially dead man for ten years. Doctors attributed my sufferings to the enlargement of certain glands. The quantity of medicine I took without relief would be sufficient to set a first-class apothecary shop. Finally St. Jacobs Oil was recommended. I had my spinal column thoroughly rubbed with it. All those knots, kinks and stiffness have passed away, and I am myself again."

Notice.

The report that we will give away five hundred dollars worth of prizes on a Christmas tree is only a fabrication of some insane individual. But we will sell our Christmas goods cheaper than any gaudy side of Texas, and don't you forget it.

Birthday Surprise Party.

The residence of Mr. and Mrs. McNulty was last evening the scene of a very pleasant gathering at the instigation of the worthy lady of the house on the occasion of her husband's thirty fifth birthday. The meeting was a surprise to Mr. McNulty and an exceedingly pleasant affair in every respect, the company being of just sufficient size and such congenial nature as to make it truly social.

Games, music, dancing and general sociability were indulged in till time hurried up midnight with a handsome and delicious repast such as the skilled hand and correct taste of the lady of the house only knows how to manipulate—previous to its appearance on the table. After supper, more fun, congratulations on the occasion and departure for home of the well pleased and finely entertained guests.

It was not repeated as a reflection upon Italians, as will be seen by reading the item, but to show the estimate in which the Graphic assumes to hold that people and by the expression of which it proves itself a narrow-minded and prejudiced journal.

A Partially Dead Man.

The Morning Herald, Baltimore, Md., states: Major B. S. White, of this city, describes his miraculous cure as follows: "I have been a partially dead man for ten years. Doctors attributed my sufferings to the enlargement of certain glands. The quantity of medicine I took without relief would be sufficient to set a first-class apothecary shop. Finally St. Jacobs Oil was recommended. I had my spinal column thoroughly rubbed with it. All those knots, kinks and stiffness have passed away, and I am myself again."
